WHAT WE DO

We are dedicated to bringing the best products and services to the 22+ million members of the public service sector through the LeoAdventures.com membership program

WHY WE DO IT

You are on the front lines of every crisis we face as a nation. You are our country's protectors, defenders and first responders. You serve our communities and teach our children every day. Thank you.

We approached a number of companies who make the best adventure related products we could find. We asked those companies if they would offer their products to public service employees at a professional discount because of what you do. Many said yes. We hope you will support those companies and use their products proudly.

Let your adventures begin.
